«I worked with Andy Fiord Production on a very challenging global photography and film shoot for Shell in Russia. The guys at Andy Fiord were amazing. They pulled out all the stops and delivered fantastic results, on time and on budget. They reacted quickly and effectively to any problems or issues that we faced as the project evolved and made my team feel totally at ease and cared for. They were extremely attentive, highly professional and really great fun to work with. I couldn't rate them more highly and it's a great pleasure for me to recommend these guys for any photographic or film project in Russia.»

Lee Southgate

This is a team of passionate and experienced professionals who are ready to meet any challenge. I also have no doubts when I recommend Andy Fiord Production to my colleagues from foreign CondO Nast offices: despite being in Russia, this company provides services on a global level.»
