

STUDIO
VISUAL EFFECTS & ANIMATION

CGF was founded in 2004

Since our foundation we were specialized in VFX, character creation, research and development of new technologies in the visual effects industry. We are also making experiments in the field of multimedia and MR technology.

WHO ARE WE ?

Today, CGF

is the **largest studio** of visual effects and animation in Russia. CGF's credits include more than **67 feature films and TV series**. The company produced about **100 other projects**, among them commercials and music videos.

CGF's team has over **70 professional international awards**.
